SKILLS SUMMARY

- **Languages:** Python, JavaScript, C, SQL
- **Frameworks:** Django, Flask, React, Tailwind, Selenium
- **Tools:** Docker, Github, VS code, Vim, DBMS, ORMs
- **Soft Skills:** Strong Stakeholder management, People Management, Excellent communication

WORK EXPERIENCE

SOFTWARE ENGINEER | Fantastic7 | [Link](#)

April 2023 - Present

- Lead a multidisciplinary team of 7, including 3 developers, 2 designers, a social media strategist, and a brand designer, in the successful development of products.
- Spearheaded the development and implementation of robust logic frameworks, enhancing the platform's functionality and performance.
- Collaborated closely with UI/UX designers to ensure an intuitive and visually appealing user interface, improving user engagement and satisfaction.
- Facilitated efficient team collaboration through effective communication and project management, resulting in timely project delivery.
- Drove innovative solutions and continuous improvements, contributing to the overall growth and success of projects.

FULL STACK DEVELOPER (INTERN) | Zuri Team, Inc. | [Link](#)

June 2022 - August 2022

- Instrumental in designing and implementing robust and scalable APIs using Python, particularly within the Django framework.
- Collaborated closely with cross-functional teams to ensure seamless integration and optimal performance.
- Applied best practices in API development to enhance functionality, maintainability, and overall system

SOFTWARE ENGINEER (INTERN) | NIWA | [Link](#)

April 2021 - October 2021

- Developed a comprehensive platform to streamline the registration process for vessels, enhancing operational efficiency.
- Designed and implemented a user-friendly interface, ensuring ease of use for administrative staff and vessel owners.
- Integrated secure data handling practices to protect sensitive vessel information and comply with regulatory requirements.
- Collaborated with cross-functional teams to gather requirements and ensure the platform met all operational needs.
- Conducted thorough testing and debugging to ensure the platform's reliability and smooth performance upon deployment.

CERTIFICATES

Full Stack Developer (I4GxZURI) | [CERTIFICATE](#)

August 2022

- Learned front-end technologies: HTML, CSS, and JavaScript.
- Gained knowledge in back-end development with Python and SQL.

Python Programming (HackerRank) | [CERTIFICATE](#)

October 2017

- Learned Python fundamentals, including Scalar Types, Control Flow, Strings, Collections, and Iteration.
- Mastered Object-Oriented Programming concepts in Python, such as Objects, Types, and Classes.

EDUCATION

FEDERAL UNIVERSITY LOKOJA

December 2017 - January 2023

Bachelor's Degree, Computer Science
